Attitude

Reduce 94% of road incidents by addressing your attitude and behavior behind the wheel.

Fatigue

Review causes of fatigue and learn how to lower your risk of being fatigued while driving.

Distraction

Explore the dangers of multitasking and the importance of staying focused on driving, refraining from using electronic devices, reading maps, etc.

Speeding

Review the dangers of speeding, which is the biggest single contributory factor in road crashes for you and other road users.

Parking Pitfalls

Learn how to park defensively and avoid damage while parked.

Risky Weather

Identify and minimize the risks associated with driving in risky weather conditions.

Blind Spots

Address blind spots to create a safe driving environment for you and other road users.

Concentration

Discover what can happen with a lack of focus while driving and how to avoid loss of concentration.

Decision-Making*

Review how making the right decisions on the road can keep you safe and protect other road users.

Rear-End Collisions

Prevent rear-ending other road users and avoid being hit from behind using escape routes.

Driving at Night

Learn about the additional dangers of driving at night, including fatigue, limited visibility, and more.

Sharing the Road

Learn about the importance of looking out for other road users and displaying considerate behavior while driving.

Eco-Driving

Learn about eco-driving, a method of driving which reduces fuel consumption and greenhouse gas emissions.

Hazard Recognition

Increase skills to spot potential hazards far in advance in order to react safely.

Harsh Acceleration*

Drive slowly, smoothly, and steadily to prevent harsh acceleration.

Harsh Braking

Prevent harsh braking by driving slowly, smoothly, and steadily.

Harsh Maneuvers

Uncover the defensive driving behaviors that will help you avoid harsh maneuvers while driving.

Driving Under the Influence*

Discover the dangers and repercussions of driving under the influence.

Well-Being*

Discover how taking care of your health and making some simple changes to your lifestyle can help improve your safety on the road.

Act Now*

Prevent involvement in collisions that may result in injuring yourself or others.

Severe Injury Prevention*

Explore defensive driving skills that can prevent severe injury on the road.

Rural Road Safety*

Review safety when driving on rural roads.

Off-Road*

Explore safe driving behaviors when traveling off-road.

EV: Introduction*

An introduction to electric vehicles.

EV: Driving an EV*

Understand the unique driving style of electric vehicles.

Ergonomics

Discover ways to be ergonomically safe while driving.

Ergonomics II*

Explore additional ways to support ergonomic health when driving.

Vehicle Checks

Explore the advantage of pre-trip and post-trip checks and what to look for to ensure your vehicle is in top condition.

Advanced Safety Systems

Discover modern safety features available in vehicles today.

Trucks, Commercial Vehicles

Fatigue – Truck*

Review causes of fatigue and learn how to lower your risk of being fatigued while driving.

Blind Spots and Mirrors – Truck*

Discover the increased risk of blind spots and how to manage them.

Changing Lanes – Truck*

Explore the key aspects of changing lanes, merging, and passing safely.

Hazard Recognition – Truck*

Increase skills to spot potential hazards far in advance in order to react safely.

Hours of Service – Truck*

Overview of the hours-of-service regulations for commercial vehicles (US only).

Liftgate – Truck*

Safe liftgate operation to avoid severe injury and even death when loading and unloading the vehicle.

Ergonomics – Truck*

Uncover ways to be ergonomically safe while driving.

Ergonomics II – Truck*

Review additional ways to support ergonomic health when driving.

Harsh Acceleration – General

Drive slowly, smoothly, and steadily to prevent harsh acceleration.

Harsh Braking – General

Prevent harsh braking by driving slowly, smoothly, and steadily.

Harsh Maneuvers – General

Uncover the defensive driving behaviors that will help you avoid harsh maneuvers while driving.

Off-Road – General

Explore safe driving behaviors when traveling off-road.

Act Now – General

Prevent involvement in collisions that may result in injuring yourself or others.

Decision-Making – General

Review how making the right decisions on the road can keep you safe and protect other road users.

Driving at Night – General

Learn about the additional dangers of driving at night, including fatigue, limited visibility, and more.

Well-Being – General

Discover how taking care of your health and making some simple changes to your lifestyle can help improve your safety on the road.

Driving Under the Influence – General

Discover the dangers and repercussions of driving under the influence.

2-Wheel Vehicles

Riding in Fog – 2W*

Identify and minimize the risks associated with driving a 2-wheel vehicle in foggy conditions.

Rules of the Road – 2W*

Explore driving behaviors that will help you stay safe while operating a 2-wheel vehicle.

Sharing the Road – 2W*

Study the importance of looking out for other road users and displaying considerate behavior while driving a 2-wheel vehicle.

Vehicle Checks – 2W*

Review the advantage of vehicle inspections to ensure your 2-wheel vehicle is in top condition.

Harsh Acceleration – General

Drive slowly, smoothly, and steadily to prevent harsh acceleration.

Harsh Braking – General

Prevent harsh braking by driving slowly, smoothly, and steadily.

Harsh Maneuvers – General

Uncover the defensive driving behaviors that will help you avoid harsh maneuvers while driving.

Off-Road – General

Explore safe driving behaviors when traveling off-road.

Decision-Making – General

Review how making the right decisions on the road can keep you safe and protect other road users.

Rural Road Safety – General

Review safety when driving on rural roads.

Act Now – General

Prevent involvement in collisions that may result in injuring yourself or others.

Driving at Night – General

Learn about the additional dangers of driving at night, including fatigue, limited visibility, and more.

Well-Being – General

Discover how taking care of your health and making some simple changes to your lifestyle can help improve your safety on the road.

Driving Under the Influence – General

Discover the dangers and repercussions of driving under the influence.

Powered Industrial Vehicles

Attitude – PIV*

Your attitude determines the way you behave in the warehouse or factory and how you interact with other operators and multiskilled operatives.

Knowledge – PIV*

Improve your understanding of the risks you face when operating your powered industrial vehicle.

Safe Operations – PIV*

Review the basics of safe powered industrial vehicle operation.

Pre-Shift Inspection – PIV*

Explore the benefits of a pre-shift inspection to ensure your powered industrial vehicles is in proper operating condition.

Stability Triangle – PIV*

Learn about the unique stability aspects of a powered industrial vehicle.
