

Comprehensive Driver Risk Management Designed for Insurance

Risk Managed Insurance by eDriving (RMI) brings together our comprehensive toolkit of loss control measures, our award-winning telematics app, Mentor, and eDriving's global Crash-Free Culture® programme into one tailored solution for the insurance value chain.

Loss Control & Analytics

- Risk Managed Insurance by eDriving is a comprehensive loss control programme focused on the components that affect insurance profitability.
- RMI provides an in-depth and constantly updated understanding of portfolio risk using technology and a patented, proven behaviour change methodology to reduce customer risk BEFORE losses happen.
- Our analytics and reporting integrate seamlessly with existing systems' data sets enabling faster, better informed decision making.

Mentor® Smartphone App

- eDriving's award-winning, smartphone-based telematics app includes insurance-focused features, such as Mentor TSP (integrates telematics data from other providers), event reporting, and crash reconstruction.
- Mentor helps identify and remediate risky driver behaviour through its FICO® Safe Driving Score predictive of crash risk, as well as engaging micro-training, coaching, and gamification.
- New features include Mentor TAG with CrashPACK, EcoDrive rating, and Emergency Rapid Response Services (crash detection & Personal SOS) powered by Sfara and Bosch.

Crash-Free Culture®

- RMI includes eDriving's Crash-Free Culture® programme used by Fortune 500 companies throughout the world. We enable a closed-loop approach to produce sustainable driver behaviour change while reducing collisions, injuries, licence endorsements, and total cost of fleet ownership.
- Sustainability and the reduction of carbon emissions is an important focus of our programme.
- Our EcoDrive icon helps drivers remember that safe, defensive driving IS eco-driving.

Proven Success

Achieved 10-20% reduction in Collisions per Million Miles throughout 2-year Mentor rollout to 10.5K North American drivers. Sustained improvement realised with addition of consistent, quality manager coaching.

Global programme spanning 86 countries and 50K drivers cut claims frequency by over 50% & reduced Average Claim Cost per Vehicle by a staggering 76%.

One of Europe's largest driver risk reduction programmes with 65K drivers enabled BT to halve its collision rate and cut costs by £13M per year over a 12-year period.
