

Telematics-Free digital driver risk management

Looking for a driver safety solution that **does NOT include telematics** but still delivers the most powerful tools to manage driver risk?

Look no further!

Mentor Insight identifies and remediates risky driver behavior using scoring, eLearning, coaching, and gamification, while recognizing safe, eco-friendly driving with rewards. Mentor Insight also includes integrated **Personal SOS** with **Emergency Response Services** powered by Bosch and Sfara to assist drivers in over 50 countries in the event of a personal emergency. All delivered from a privacy-first, data-secure platform and supported with unsurpassed professional services.

Key Benefits

- Reduced collisions, incidents, injuries, violations
- Reduced operational costs
- Reduced emissions; increased eco-driving
- Reduced cost of vehicle ownership
- Proven sustained driver behavior change; increased driver safety
- Comprehensive view of driver risk with insightful intelligence
- Peace of mind via 24 x 7 emergency response services
- Highest levels of driver privacy protection and data security
- Deep, respected expertise with 25+ years' experience and 120+ awards
- Positive brand association for safety and sustainability

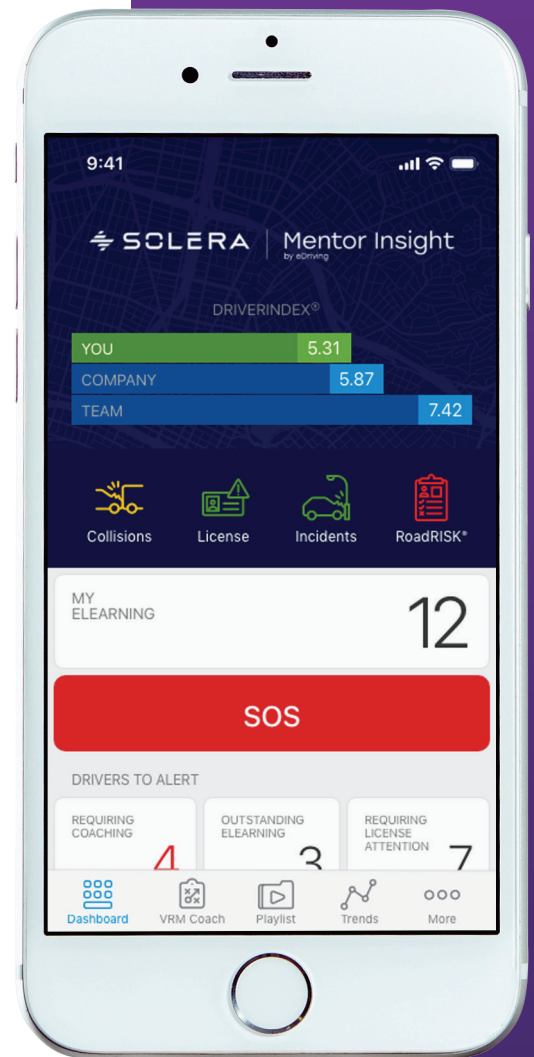

Flexible Mentor Options

Full-Service for Enterprise

For large, enterprise clients that want a more **customized solution** which may involve a pilot, tailored training sessions, adapted reporting, extended support, and more!

Turnkey for SMB

For small- to medium-sized businesses that want a solution that's **quick to implement** but won't distract from their core mission or stress company resources and includes dedicated support.

Proven Success

eDriving, a Solera company, helps organizations around the world improve safety, reduce injuries, license violations, carbon emissions, and total cost of fleet ownership through its patented digital driver risk management programs.

eDriving is the digital driver risk management partner of choice for many of the world's largest organizations, supporting over 1,200,000 drivers in 125 countries. Over the past 25 years, eDriving's research-validated programs have been recognized with over 120 awards around the world.

Robust, Unique Features

From our experience working with many of the world's largest fleets and their work councils/unions, we've derived a solution that does NOT depend on telematics, but still delivers many of the most powerful tools in digital driver risk management, including:

-  **Advanced Risk Assessment**
Predictive, independently validated **RoadRISK®** assessment identifies a driver's initial risk level using driver profile, knowledge, attitude, behavior, and hazard perception inputs.
-  **Driver Scoring**
Drivers receive a validated **DriverINDEX®** score encompassing incidents, collisions, license violations, and RoadRISK® results that predicts the likelihood of being in a collision. *(License violation data available in the US, UK, and Canada only.)*
-  **eLearning**
300+ micro-training modules available in 25+ languages provide drivers with engaging, interactive content to address risky behavior and promote best practice.
-  **Informal Engagement & Gamification**
Promote friendly competition by enabling users to set up Circles where they can see fellow members' progress/scores and send motivational messages.
-  **Step-by-step Coaching Templates**
Easy-to-use templates help managers provide intervention and guide critical coaching conversations with high-risk drivers.
-  **Driver Event Reporting (DER)**
Allows drivers to submit collision information directly from Mentor to Fleet/Accident Management Partners/Insurers to help reduce claims cost by up to 40%.
-  **Driver Vehicle Inspection Report (DVIR)**
Checklist guides drivers through daily inspection of their vehicles before and after their appointments/routes, prompting for maintenance issues.
-  **Personal SOS**
Allows drivers to initiate a call for help whenever they feel unwell or unsafe to Bosch's Global Call Center agents, who relay information to local emergency services for immediate dispatch of help to the scene.
-  **Driver Risk Monitoring (US, UK, Canada only)**
Continuous license monitoring ensures employers have the most up-to-date information regarding employees' driving records and ability to drive for work.
-  **KPIs, Analytics & Benchmarking**
Unified platform delivers insightful analytics which provide a comprehensive view of driver risk and help demonstrate ROI through reduced collisions, incidents, violations, and total cost of vehicle ownership. Includes CrashPACK data in the event of a collision.

Unmatched Professional Services & Support

Customer Success – Dedicated customer account teams provide timely assistance whenever needed.

Data Analytics/Reporting – Data scientists and analysts help eDriving customers turn data into actionable insights.

Privacy Support – Global Privacy Team assists clients with employee work council and union briefings and ensures their privacy strategy meets global standards.
